Mumbai attack mastermind gets 15-year jail term in Pak

Pak always comes up with 'farical actions' before key global meetings: MEA

By Press Trust of India
Last Updated: January 8, 2021

Mumbai attack mastermind and Lashkar-e-Taiba operations commander Zaki-ur-Rehman Lakhvi was sentenced to fifteen years in jail on Friday by a Pakistani anti-terrorism court in Lahore in a terrorism financing case. The court also ordered the seizure of assets worth \$200 million (approx. ₹1,600 crore) and a fine of \$200 million (approx. ₹1,600 crore) on three counts. The court also ordered the seizure of assets worth \$200 million (approx. ₹1,600 crore) and a fine of \$200 million (approx. ₹1,600 crore) on three counts. The court also ordered the seizure of assets worth \$200 million (approx. ₹1,600 crore) and a fine of \$200 million (approx. ₹1,600 crore) on three counts.

Zaki-ur-Rehman Lakhvi was designated a global terrorist by the UN in December 2008 for being associated with LeT and al-Qaeda

convicted the same day in the terrorism financing case registered against him some time ago. The court was told that Lakhvi, a resident of Roral Khan (Orakara district of Punjab) was living in Islamabad before his arrest in this case. Lakhvi, 61, who was on bail since 2015 by the Punjab Terrorism Department (CTD) of Punjab province on Saturday. He was designated as a global terrorist by the UN in December 2008 for being associated with LeT and al-Qaeda and for 'participating in the financing, planning, facilitating, preparing or perpetrating of acts by, in conjunction with, under the name of, on behalf or in support of' both the entities.

International terrorists and entities are subject to an assets freeze, wherein all status are required to freeze funds and other financial assets or economic resources of designated individuals and entities, a travel ban that prevents the entry into or transit through nations' territories by the designated individuals and an arms embargo. Last month, the UN Security Council's 1267 Al Qaeda Sanctions Committee allowed for a monthly payment of PKR 1.5 lakh for Lakhvi to meet his personal expenses. The permission was granted 10 days before his arrest. Lakhvi has named his son Hafizur Rehman and brother Saadul Bashir Wahed who would send him PKR 90,000 and PKR 60,000 respectively in his bank account. He said that his son and brother both have the bank accounts in the same branch.

The Paris-based FATF published its report on the money laundering and terrorism financing by the end of 2019 but the deadline was extended later on for Covid-19.

The intention of conveying a sense of complacency about the FATF (Asia Pacific region) meeting and the next FATF (Financial Action Task Force) plenary next in February 2021. "It has become routine for Pakistan to come up with farcical actions prior to important meetings," he said when asked about the jail sentence to Lakhvi, and issuance of an arrest warrant against Ishaq-e-Mohammad chief Masood Azhar by another Pakistan court. "UN proscribed entities and designated terrorists act as proxies for Pakistani establishment to fulfil its anti-India agenda. It is for the international community to hold Pakistan to account and ensure that it takes creditable action against terror groups, terror infrastructure and individual terrorists," Srivastava said.

Interestingly, Lakhvi was presented before the Lahore ATCT on Friday and was

in default of court order, he will have to undergo an imprisonment of six months each on three counts. He has been sent to prison to serve the sentences, the official said.

Lakhvi was placed before the court that he was "falsely implicated" in this case. He was accused of running a dispensary and using funds collected for terrorism financing. "He and others also collected funds from this dispensary and used these funds for further terrorism financing. He also used these funds for personal expenses," the CTD said.

India responds
In New Delhi, Ministry of External Affairs Spokesperson Anand Srivastava said the timing of these arrests highly suggests

Bird flu outbreak dents chicken sales, farmers hit

By Reuters
Mumbai/Bangalore, 8 January

Broiler chicken prices in the country have fallen by almost a third in a week with consumption dropping after an outbreak of avian influenza was reported in six states, industry officials told Reuters.

The sudden drop in demand and prices is hurting younging the tens of millions of poultry farmers in an industry that only recently

started to recover from the coronavirus outbreak-led disruption that hit sales during 2020. "Demand has fallen 30 per cent," said Uddhav Ahire, chairman of Anand Agro Group, a poultry company based in the western city of Nashik.

Broiler chicken prices have fallen to 660 a kg from around 890 a week ago, he said. "Farmers are incurring losses as the production cost is more than 875.

The central and state governments have been trying to ally consumer fears, saying consumption of chicken and eggs is safe after cooking.

The industry might see some temporary disruption, but we don't see this to be a long term phenomenon and this might correct itself in a period of 15-20 days," said Praveen Peddaboina, general manager of a poultry-focused venture, which has seen its shares slide more than 10 per cent this week. Egg prices have also fallen by more than 10 per cent in a week as small farmers try to sell their produce as quickly as possible, fearing a further drop in prices, said a poultry farmer.

FROM PAGE 1

Budgetary...

The departments were classified into three groups and were asked to savagely cut expenditure. Similarly, the ministries were also classified into three groups. Of those, depending on their relevance to tackling the pandemic, the first set had to reduce their expenditure by 20 per cent, the next by 40, and the rest by 60 per cent. It was left to the departments concerned to figure out how to make the cuts.

The numbers being circulated for the next financial year will bring ministries to more or less the same position regarding their spending they had hoped to be in March 2020.

It is not a bad deal. An officer said as most of the heads were left untapped, a fresh beginning can be made.

The government, it would seem, is reserving its firepower to spend on big-ticket items that will be announced in the Budget. This will include spending for the states in accordance with the 15th Finance Commission report, which will be tabled in the two Houses on the day of the Budget. For FY21, the government had planned to spend ₹320 trillion, according to Budget estimates. Leaving out the committed interest payments and transfers to states, including centrally sponsored schemes, grants given by the Finance Commission and sundry others, loans etc, the remainder of ₹120 trillion.

Subtracting other committed expenditures, including wages and pensions, which amount to ₹45.58 trillion, had left about ₹116.22 trillion for the entire year. The ministries will do the same maths after a gap of one year.

Indices...

Markets across the globe also rose ahead of a key jobs data report. Forecasts have shown a sharp fall in hiring in December, resulting in a stronger case for more stimulus.

"It is easier to push through stimulus with Democrats gaining control of the Senate. The stimulus could weaken the dollar, and the weak dollar is good for emerging markets," said Jayvardhan Jaipuria, founder of Valentin Advisors. US President Donald Trump's statement on Thursday promising a smooth transition further boosted optimism, coming a day after his supporters ran riot in the Capitol building, the seat of the US government.

Investors are looking beyond rising coronavirus cases and political unrest in the US to focus on hopes for an economic recovery later in the year.

owing to the Democratic control of the US Senate and hopes of speedy economic rebound due to the vaccine, setting the trend for the domestic markets, which followed suit," said Vinod Nair, head of research, Govit Financial Services.

The first advance estimate of India's gross domestic product (GDP), which projected a contraction of 7.7 per cent in financial year 2020-21, was better than expectation and this added to investors' optimism. It showed good recovery in some sectors in the second half of the financial year.

On Friday, 481 stocks hit their 52-week highs, and 473 were locked in the upper circuit on the BSE Sensex. The market breadth was positive with total advancing stocks at 1,734 and those declining at 1,388 on the Sensex. Four-fifths of Sensex components ended the session with gains.

IT stocks gained ahead of third quarter results of Tata Consultancy Services, Tech Mahindra rose 5.6 per cent to become the fifth Indian IT company to cross a market capitalisation of ₹1 trillion, while Infosys rose 3.95 per cent. Maruti was the best-performing stock, ending the session with a gain of 5.9 per cent.

"Besides earnings, global cues and updates on vaccine drive will also remain in focus. At present, the rotational buying across sectors helps the index inch higher and suggests aligning positions according to the trend. However, traders should avoid going overboard and keep a check on leveraged positions," said Ajit Mishra, vice-president of research at Religare Broking. Barring two, all the BSE sectoral indices ended the session with gains.

Modi meet...
Adar Poonawalla, CEO of Serum Institute, has said the price of Covishield will be ₹200 per dose for the first 100 million doses supplied to the government. By March, Hyderabad-based Bharat Biotech too may have efficacy data from its phase 3 trials. It completed recruitment for the trials on Thursday. Bharat Biotech has 10 million doses of Covinax ready and can have another 10 million in the next few weeks. It can, therefore, supply 20 million doses to the government. The moment for its vaccine which got restricted use approval in clinical trial mode.

gitches they had faced during the dry run -- Chhattisgarh pointed at network issues in tribal belts, while Telangana said it faced software problems. For Jammu and Kashmir, the concern has been that 2G network availability there made it difficult to use the Co-Win platform, which is driving the vaccination exercise.

(With inputs from Anandam Majumdar)

RBI hints...

The restoration announcement and the act of restoring the normal timing for the window "should realign short-term rates towards repo rate and above", Niyogi said.

Having said that, experts do say it would be a very long time before the RBI gets back to its original stance of keeping liquidity contained at plus-minus 1 per cent of the total deposit base, which is roughly about 1.5 trillion surplus or deficit liquidity, depending upon the stance of the monetary policy.

The RBI continues on with an 'accommodative' policy stance, and that too would likely not change before the second half of the calendar year, economists say.

TCS beats...

While the company took a salary hike in October it was able to offset the costs due to operational efficiencies resulting in margin improvement. A reduction in travel spends and soft contracting costs too is believed to have helped the company.

"Growing demand for core transformation services and strong revenue contribution from earlier deals have driven a powerful momentum that helped us overcome seasonal headwinds and post one of our best performances in a December quarter," said Copeland.
